

he FCC that you benefit from listening to XM Satellite Radio and its traffic and weather channels. Explain how satellite radio provides variety and quality that are not available elsewhere. You pay for these services and it should not be up to the National Association of Broadcasters to dictate what you are permitted to hear.

I am against the NABA petition, 04-160. I choose to pay for the content provided by XM radio because it is generally superior to that of conventional radio broadcast. Please reject the NABA petition.

Thank You.
